The obituary of the Society of Friends for the past year for Great Britain and Ireland shows some striking instances of longevity. In all, the deaths of 317 persons are recorded-160 males and 157 females. The infantile mertality is very slight-the total number of deaths of children under one year being 13, and of those. between one and five years 11. Of persons from 5 to 10 years there were seven deaths, and 10 to 15 years 4 deaths only in the year. The deaths slowly increase with the decades following, but not until-that from 50 to 60 is reached is the number over 20, for the decade named the actual number being 29. But from 60 to 70 years there were not fewer than 51 deaths, from 70 to 80 years the number was 72, there being 31 males, and 41 females. The deaths at the age of from 80 to 90 years were as many as 61, the number of males being 24, and females 37. And of deaths of persons between 90 and 100 years of age there were eight, of whom three were males and five females. One of the latter eight was 92; two were each 93; another 91; while most of the remainder had turned the 90th year.

A FATAL MISTAGE IN AMERICA.

The Cleveland (Ohio, U.S.A.) Press, of Feb.

23, 1883, publishes an account of a fatal surgical operation which has caused a great commotion among medical men throughout the whole country, Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous. It apmany years with some disease of the stomach which had resisted the treatment of all the physicians in attendance. The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable tasto, especially in the morning. This sensation was not removed by food, but on the contrary, it was increased. The eyes then became tinged with yellow, and were sunken. After awhile the hands and feet became cold and sticky-a cold perspiration. There was a constant tired and danguid feeling. Then followed a dreadful nervousness, with gloomy forebodings. When rising suddenly, there came a dizzy feeling like vertigo. Afters time the bowels became costive, so that it was difficult to procure a movement without a cathartic. Soon followed a disposition to spit up the food after eating, sometimes, in a sour, fermented condition. All this derangement caused a terrible palpitation of the heart, so as to make the breathing difficult. Finally, the · patient was unable to retain any food whatever, and there was constant pain in the abdomen-All prescribed remedies failing to give ratiof a consultation was held, when it was decided that the patient had a cancer in the stomach, and, in order to save the patient's life, an operation was justifiable. Accordingly, on Feb. 22, 1883, the operation was performed by Dr. Vonce, in the presence of Dr. Tuckerman, Dr. Perrier, Dr. Arms, Dr. Gordon, Dr. Lapuer, and Dr. Hulliwell of the Police Board. The operation consisted in laying opensthe cavity of the abdomen and exposing the stomach, bowels, liver, and pancreas. When this had been done, an examination of the organs was made, but, to the horror and dismay of the doctors, there was no cancer to be found. The patient did not have a cancer When too late, the medical men discovered that they had made a terrible mistake. They sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad i must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remody for dyspopsia (for this is what the disease really was), she would have been living to-day. Saigel's Curative Syrup, a remedy made express ly for dyspensia or indigestion, has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of it: efficier in curing this class of onses is too voluminous to be published here, but those who read the published evidence in favour of this despeptie remedy do not question its convincing nature: and the article has an extensive sale Sold by all Chemists and Medicine Vendors throughout the world, and by the proprietors. "Dear Sir.—It affords me great pleasure to add my testimony to the wonderful effect of Mother Seigel's Curative Syrup., For a period of eight years I suffered from a severe cough and indigestion, with frequent attacks of rheumatism; and for eleven mouths I was under medical treatment, without deriving the slightest benefit. The last four doctors I was under assured me that mine was a honeless case, and gave me up as incurable. About that time heard of Seigel's Syrup, which I was induced to try, and through its use, I am thankful to say, I quickly got restored to health, and am now able to follow my usual occupation. I may say that whonever I feel the least symptom of my old complaints I at once take a few doses of the Syrup, which quickly sets me all right. I send you this in the hope that other sufferers may be induced to give the Syrup a trial.—Yours truly
